Rosario, Argentina.

### WORK EXPERIENCE

I do not have any professional experience yet, but I have worked on projects during two work simulations at No-Country, both as a backend developer using JavaScript and TypeScript with ExpressJS as the backend framework.

Additionally, I collaborated with two classmates on a project for one of their family's carpentry business (Wotech), along with some personal projects, such as an eCommerce API.

### PROJECTS

#### SVE (APRIL 2025 - CURRENT)

University project for Professional Practice II. It aims to become the new system used by the institution for students, replacing Classroom. Both the documentation and the website were developed.

**Technologies:** TypeScript, ExpressJS, SQL y React

#### WOTECH (SEPTEMBER 2024 - NOVEMBER 2024)

Joined two classmates to help develop the backend of a website for a carpentry business.

**Technologies:** JavaScript, ExpressJS, MySQL, and React.

#### E-COMMERCE API (JULY 2024)

Developed a complete API (with a very basic UI) for a fictional e-commerce platform.

**Technologies:** JavaScript, ExpressJS, and MongoDB.

#### NO-COUNTRY (MARCH 2024 - APRIL 2024)

Worked as a backend developer in a team to build a service marketplace website.

**Technologies:** JavaScript, ExpressJS, MongoDB, and ReactJS.

#### NO-COUNTRY (FEBRUARY 2024 - MARCH 2024)

Worked as a backend developer in a team to create a newsletter platform.

**Technologies:** TypeScript, ExpressJS, MongoDB, and React.
